45	11.5	29
46	12	29.5
47	13	30.5
48	14	31

#### FOOT FORMS & SIZING:

Specialized offers unique lasts (foot forms) to ensure superior fit for every intended cycling experience.

- Women's last - shaped to suit the narrower heel and triangulated shape of a woman's foot, while providing a wider and lower volume forefoot
- Enthusiast Road & MTB last - shoe last uses a roomy toe box, snug heel cup and form fitting upper for a supportive glove-like fit
- Recreational last - Tahoe and Sonoma last is designed with more forefoot room for off-the-bike hiking or walking comfort
- Narrow (A), Standard (C) & Wide (EE) widths available in specific Pro-level shoe models

Our shoes are built using European sizing standards, so we are able to offer smaller increments between sizes. The following conversion chart is an approximation from European standard to USA sizing. As always, the best way to judge fit is to try on the shoe.

### WOMEN'S ENTHUSIAST - PRO, MOTODIVA, TORCH, RIATA

---

#### Shoe Sizes
